Composite Structures **23** (1993) 341–342

CONTENTS OF VOLUME 23

Number 1

Static analysis of a thick laminated circular cylindrical shell subjected to axisymmetric load 1
K. CHANDRASHEKHARA & B. S. KUMAR (India)

Parametric studies on the elastic work factor for the CLS specimen 11
K. Y. RHEE (USA)

Free vibrations of gravity loaded composite beams 17
HAIM ABRAMOVICH (Israel)

Postbuckling behaviour of optimized rectangular composite laminates 27
M. D. PANDEY & A. N. SHERBOURNE (Canada)

Nonlinear vibration of antisymmetric imperfect angle-ply laminated plates . . 39
LIEN-WEN CHEN & JENQ-YIING YANG (Taiwan)

Large deflections of sandwich plates — An experimental investigation 47
N. K. BAU-MADSEN, K.-H. SVENDSEN & A. KILDEGAARD (Denmark)

Optimization of stiffened laminated-composite circular-cylindrical shells for buckling 53
G. SUN & RENJIE MAO (China)

New theories for symmetric/unsymmetric composite and sandwich beams with C^0 finite elements 61
B. S. MANJUNATHA & T. KANT (India)

The use of strain measurements for detecting delaminations in composite laminates 75
KI-SOO KIM, AHARON SEGALL & GEORGE S. SPRINGER (USA)

Number 2

Special Issue: Damage Tolerance of Composite Structures

Foreword 85

Preface 86

Experimental verification and theoretical simulation of fracture behaviours of composite materials 87
N. BONORA, A. LA BARBERA, M. MARCHETTI & P. MILELLA (Italy)

Damage mechanism characterization in composite damage tolerance investigations 99
D. HULL & Y. B. SHI (UK)

Dynamic stability of laminated plates with physical non-linearity 121
G. CEDERBAUM (Israel)

Stress concentrations with singularities in filament-wound spherical pressure vessels. 131
B. MOUHAMATH (France)

Damage tolerance: Design for structural integrity and penetration 137
D. C. PREVORSEK, H. B. CHIN & BHATNAGAR (USA)

An intelligent method to determine the mechanical properties of composites under impact loading 149
S. UJIHASHI (Japan)

Delamination growth in carbon-fibre composite structures 165
E. S. GREENHALGH (UK)

Composite Structures (**23**) (1993) — © 1993 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 3

Delaminations in composite plates under transverse static or impact loads — A model 177
S. R. FINN & G. S. SPRINGER (USA)

Delaminations in composite plates under transverse impact loads — Experimental results 191
S. R. FINN Y-F. HE & G. S. SPRINGER (USA)

A higher order discrete theory for laminated plates 205
M. MOAZZAMI & R. S. SANDHU (USA)

Buckling of pressure loaded, long, shear deformable, cylindrical laminated sheels 225
J. S. ANASTASSIADIS & G. J. SIMITSES (USA)

Thermomechanical buckling and postbuckling of multilayered composite panels 237
A. K. NOOR, J. H. STARNES JR & J. M. PETERS (USA)

Vibration of delaminated composite plates and some applications to non-destructive testing 257
L. H. TENEK, E. G. HENNEKE II & M. D. GUNZBURGER (USA)

Number 4

The effect of cutout positioning on the dynamic characterisitcs of a curved composite panel 263
V. J. LEVRAEA JR, A. N. PALAZOTTO & G. E. MADDUX (USA)

Vibration analysis of laminated composite plates: TV-holography and finite element method 273
G. B. CHAI, S. S. CHIN, T. M. LIM & K. H. HOON (Singapore)

Multilayer hybride-stress finite element analysis of composite laminate with through-thickness cracks 285
W.-H. CHEN, S.-H. YANG & D.-M. CHIANG (Taiwan)

A critical review and some results of recently developed refined theories fiber-reinforced laminated composites and sandwiches 293
MALLIKARJUNA (Canada) & T. KANT (India)

Delaminations of barely visible impact damage in CFRP lamninates . . . 313
P. KUMAR & B. RAI (India)

On two mixed variational principles for thick laminated composite plates . . 319
H.-S. JING & K.-G. TZENG (Taiwan)

Technical Note
Laminate characterisation in the presence of thermal stresses 339
K. BISWAS (India)
